Carly Dalton, Specialist Learning Disability Health Facilitator, is working on a project to improve the experience and effectiveness of annual health checks for people with learning disabilities (LD) and their families.

Our session will cover:

Who can have a health check? What is the purpose of them?

What might happen at the check? What is the Health Action Plan?

We would then be very grateful for your feedback on your experiences and your ideas on how this service can be improved to make annual health checks more useful and easier to attend.

Refreshments will be served from 9.45am and the session will start at 10.00am.
